Mac Jay Steelworks

Company Profile

About Us

Mac Jay Steelworks has been providing specialized Heavy / General Engineering, Mining Supplies, HDPE Piping, maintenance and manufacturing through-out many parts of Southern Africa, but Mainly focused on Rustenburg and surrounding areas.

We have established a good relationship of trust with our clients.

Through using specialized, tested equipment and workshop machinery, we can offer an extensive quality, which in return boosts a proud and confident working relationship. Our clients get the best service and workmanship available in an extensive specialized field of Mill relining, Rubber lining, Sandblasting, Fabrication, Mining supplies and civil work.

Our Vision

The vision of Mac Jay Steelworks is to grow, enhance sustainable development and to ensure our customers receive the product of the required standards and backing them up with the quality of service they themselves offer their clients.

Our Mission

To be a spearhead in the construction, fabrication and Mining industry.

Our Inventory

We keep stock to cater for all industry needs and strive to continually progress with current technologies.

Quality Control / Communication Policy

We are invested in ensuring accurate and strict quality control systems
We have devoted special attention to the following;

- Internal Audits (continual improvement by checking and correcting)
- Non-Conformances (regulations and standards)
- Customer Satisfaction (assessment and customer feedback)
- Process Performance and Product Conformity (regulations)

Quality Control and Replacement Parts

Quality control is managed in all aspects of the company and is effortlessly traceable.

Health & Safety Plan and Workman's Compensation

Mac Jay Steelworks will compile Health and Safety Management plans for each project undertaking and will invest in the Health, Safety and wellbeing of all employees under the control of the company.
